DINE AT NATURE'S TABLE.

Our food is crafted to sustain, in more ways than one. Our first choice is always local, uncompromisingly fresh, delicious, and nutritious.

Our **Full-Service Catering** features seasonal menus crafted with what nature sees fit to share, say, mushrooms foraged in our forestlands, locally grown summer squash, or fish raised right on the farm.

And if your activity-packed stay has worked up a thirst, our **Beverage Packages** are right there to quench it, whether it's craft coffee to kick off the morning, or craft beer to kick up the celebration.

▲ The **Lucky Clays Five Stand** and **Trap Field** offer a safe and exhilarating experience for shooters of all levels, whether solo or in groups.

LIVING WITH PURPOSE.

The ideal that drives us, in all we do, is that we have the power to change the way the world grows. Giving you and your guests the space to better connect with each other and nature is our top priority. Purpose drives everything we do, from how we farm to what we make, sell, build and share.

As a center of **regenerative agriculture** and **aquaponics**, "sustainability" is not just lip service to us. We actively develop systems that minimize and restore all we take from the land.

What we grow is served in our kitchen, sold to local businesses, or donated fresh to our community foodbank—what we call our **Abundance Program**.

The Juneberry Ridge **renewable energy system** has become the state's largest residential model for sustainable energy use—cutting nearly 30K tons of CO₂ emissions yearly.
